18.	801 – 850***	0,5 – 500	247
		501 –750	259
		751 – 1 000	272

\*delivery distance includes the distance of provision of a vehicle to the place of loading specified in an Application, distance of cargo delivery to the specified address and the return way to the parking space.

\*\* price for delivery is counted for cargo delivery to one client.

\*\*\* present kilometrage is counted for one shift of the driver (up to 850 km).

Notes:

1. VAT is applied to the abovementioned tariffs in accordance with the current tax legislation.
2. If paying in Belarusian rubles, euro or Russian rubles, the amount of tariff is determined based on the tariff set in US dollars and the official exchange rate of the respective currencies set by the National Bank of the Republic of Belarus for the date of the invoice. The tariffs are rounded up according to arithmetical rules: in euro and Russian rubles, the sum rounds up to the nearest hundredth, in Belarusian rubles – to 100 Belarusian rubles if paying with bank notes of 2000 and up to the nearest hundredth if paying with bank notes of 2009.
3. If transporting cargo, which weights over 1000 kg, the delivery cost increases by 5% for every additional 250 kg.
4. Calculation of delivery cost of consolidated cargo (cargo of several shippers combined for delivery by one vehicle) shall be made by the procedure stated in Appendix 7 to the present Agreement.
