

The Museum of Aviation Technics

The first in Belarus the open air museum of aviation technics is based on the Central DOSAAF flying club named in honor of twice Hero of the Soviet Union Sergei Gritsevets (Borovaya village, Minsk district).

The museum shows the aviation equipment of different types and classes. There are totally 29 units of aircraft, including 23 airplanes and 6 helicopters. In Borovaya, visitors both can see and enter the aviation exhibits, also sit in them, put on the altitude-compensating suit and oxygen mask, that is completely feel like a pilot.
